

Held the 2023 Science and Technology Forum of the Higher Business Development Organization of the Port Maritime Transport Group (GEMAR).

Language
English

This morning the Science and Technology Forum 2023 of the Higher Business Development Organization of the Port Maritime Transport Group (GEMAR) took place. Miguel Pineda López, General Director, said the opening words and thus officially opened the event. Pineda commented on the existence of 21 papers that would be presented and defended before 2 commissions and how each investigation is expected to be implemented in their respective companies. During the development of the Forum, the use of ICTs could be seen with the successful use of videoconferencing for the presentation of different presentations. The commissions recognized the importance of the works, their relevance and timeliness; as well

as the possibility of application, since they are investigations that have scientific and social scope. 4 prizes were awarded in the different categories of Mention, Featured and Relevant. At the close of the conclave, the commission urged and invited those present to participate in the Science and Technology Forum 2024 in order to develop scientific activity in the sector.
