

Visit to UEB Astigal in Casablanca.

Language
English

Within the framework of the Highest Inspection of MITRANS, in an effort to strengthen public

transportation, the General Director of OSDE GEMAR, Roberto Ricardo Marrero, along with the Provincial Director of Transportation of Havana, Leandro Méndez, conducted an inspection at the ASTIGAL UEB of CEPRONA (Casablanca) to coordinate the repair of the iconic "300 Aniversario" boat. The vessel will be transferred to the CDC S.A. shipyard, a specialized company of OSDE GEMAR, where it will undergo a comprehensive rehabilitation process that will allow it to return to the vital routes to Regla and Casablanca, thus improving transportation capacity in this strategic connection of Havana Bay.

The visit also served to evaluate the operational status of the MAGNUS crane, belonging to the Empresa Antillana de Salvamento (Antillana Salvage Company), a key piece of equipment for naval maintenance operations.

Within the framework of the Highest Inspection of MITRANS, in an effort to strengthen public transportation, the General Director of OSDE GEMAR, Roberto Ricardo Marrero, along with the Provincial Director of Transportation of Havana, Leandro Méndez, conducted an inspection at the ASTIGAL UEB of CEPRONA (Casablanca) to coordinate the repair of the iconic "300 Aniversario" boat. The vessel will be transferred to the CDC S.A. shipyard, a specialized company of OSDE GEMAR, where it will undergo a comprehensive rehabilitation process that will allow it to return to the vital routes to Regla and Casablanca, thus improving transportation capacity in this strategic connection of Havana Bay. The visit also served to evaluate the operational status of the MAGNUS crane, belonging to the Empresa Antillana de Salvamento (Antillana Salvage Company), a key piece of equipment for naval maintenance operations. This technical follow-up demonstrates the comprehensive approach of the recovery plan, which includes both the vessels and the supporting infrastructure.
